Subject: Francoise Andre - update 01/04/2010

Dear friends,

As promised we have started a Website in honor of Francoise. The first goal of this site is to have a location where people, who wish to be kept informed, can complete a contact form and submit it so that we can have current / valid information. If you are getting this email (and to the proper address) you are (likely) already on the list. However, if you know someone who would like to be kept informed than please point them to the site and ask them to complete the contact form.

The second goal of the site was to have a location for people to share. Francoise's passing has left a void for many of us. You are not alone. However, since Francoise reach was international – we are all spread out. To this end we have started a "Blog" for people to share their thoughts. I welcome you to post a comment – or if you wish to start a new topic – (or "category" in blog speak) please send me the information and I will gladly upload it.

Site address: <http://www.artistfrancoiseandre.com>

We anticipate the site developing from this point as the need arises.

Warm regards,

Daniel
